

BIRD BUILDER[®]

DIETARY SUPPLEMENT

A natural trace mineral and iodine supplement

BENEFITS

- May support conversion to a formulated diet by fortifying thyroid function, resulting in a normal appetite
- Supplements trace minerals and iodine missing from a seed diet
- Contains 52 naturally-occurring trace minerals
- May enhance feather strength and appearance
- May help reduce incidences of fatty liver disease and obesity
- May help support the body's enzymes
- Promotes an overall healthy immune system
- Does not have any noticeable taste, odor or color; birds will drink it
- Does not decompose or become toxic in water like vitamins

DIRECTIONS

- Add 1 oz (30 ml) Bird Builder to 1 gallon (approximately 4 L) bottled drinking water; for a smaller quantity, add 0.25 oz (7.5 ml) Bird Builder to 1 quart (approximately 1 L) bottled drinking water.
- Keep refrigerated or in the dark.
- Use as the bird's only source of drinking water.
- Not recommended for use with birds eating 80% or more of a formulated diet or taking iodine supplements.

INGREDIENTS

Distilled water, trace minerals and iodine

Keep out of reach of children. For animal use only. Individual results may vary. This product is not intended to diagnose, treat, cure, or prevent any disease.
